Budget reaction 26.2.2010

Dr. Girija Vyas called the budget as positive and development oriented aimed at inclusive growth. The budget also focused on the high GDP growth rate. Referring to the tax slabs she said the changes in tax slabs it is a relief given to the people where low and middle income people will grant by benefit.

The proposal will result in increased in agricultural productive leading to major growth in agricultural and consequential rural demand for consumer goods will increase. It also will strengthens food security, education opportunities and provide health facilities at the level of households both in rural and urban areas. The increased allocation for NREGA will put more increase in the hands of the rural for BPL families.
